SDU 2016

BAC application

Project Description:

BAS production is highly multidisciplinary production center that specializes in the production of TV projects, movies, clubbing and live performances, and other areas of entertainment services market. We need to create an application to public, for watching BAS production's product, sharing with friends, see gallery, also soundtracks and etc.

Our Goals:

- Make an user-friendly interface
- Easy authorization to app
- Like, Dislike, Comment, Share
- Favourite, Notification function

Actors:

- User (someone who watches shows, tv series, movies etc.)
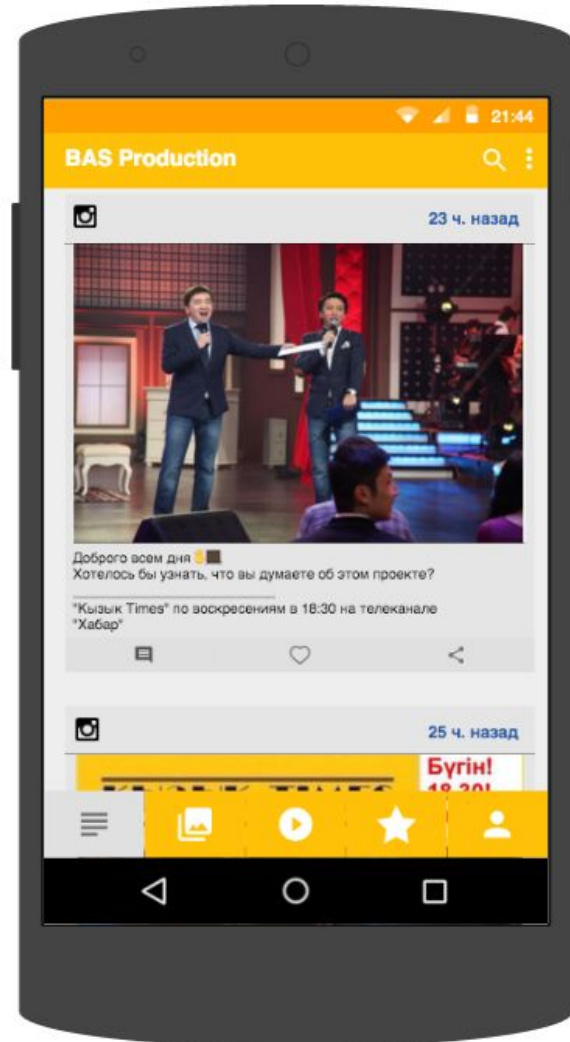

Screenshot 1 (News)

This is the main page of application. We can see News that come from instagram. User can like share and comment posts. On the right top we have 2 buttons: search and about application. In bottom app has menu tab that include: news,gallery,video, residents,accaunt information.
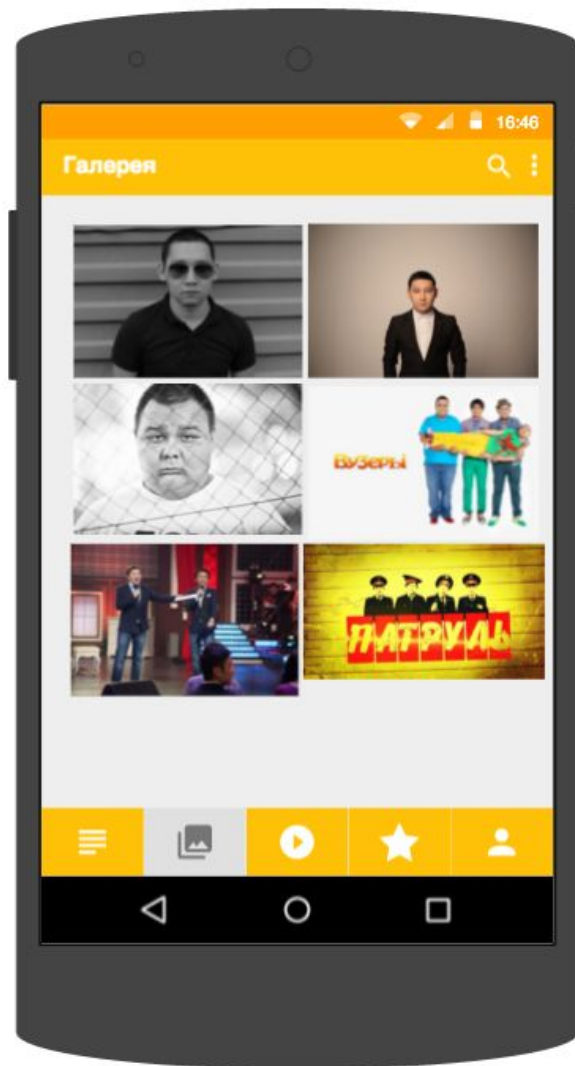

3. search, about app
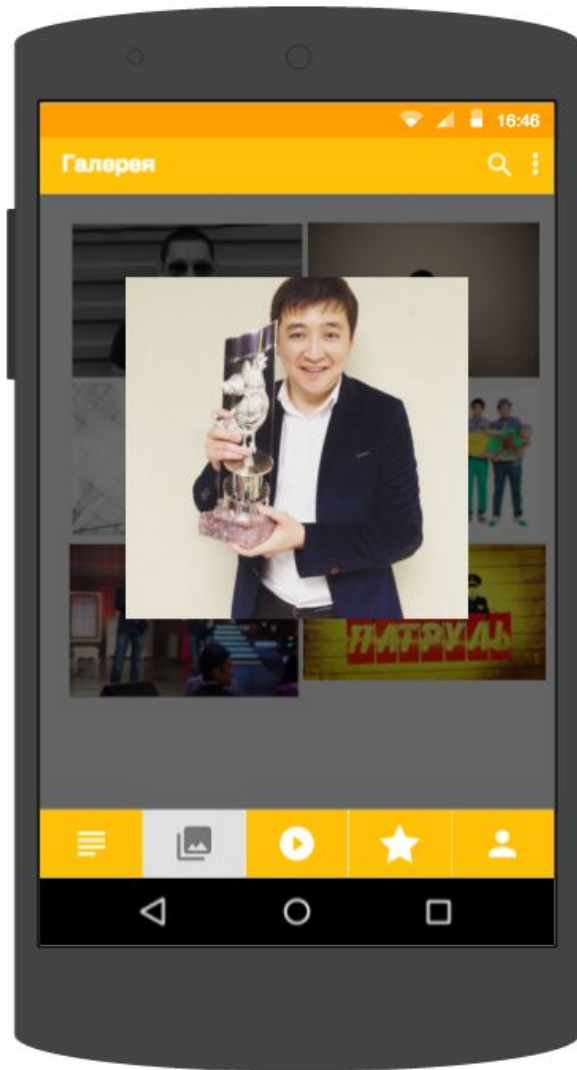

2. Post menu

1. Menu

Screenshot 2 (Gallery)

Gallery tab. Here we can see photos, images of BAS production. Click to image will zoom it.

Image

Screenshot 2.1(Zoom image)
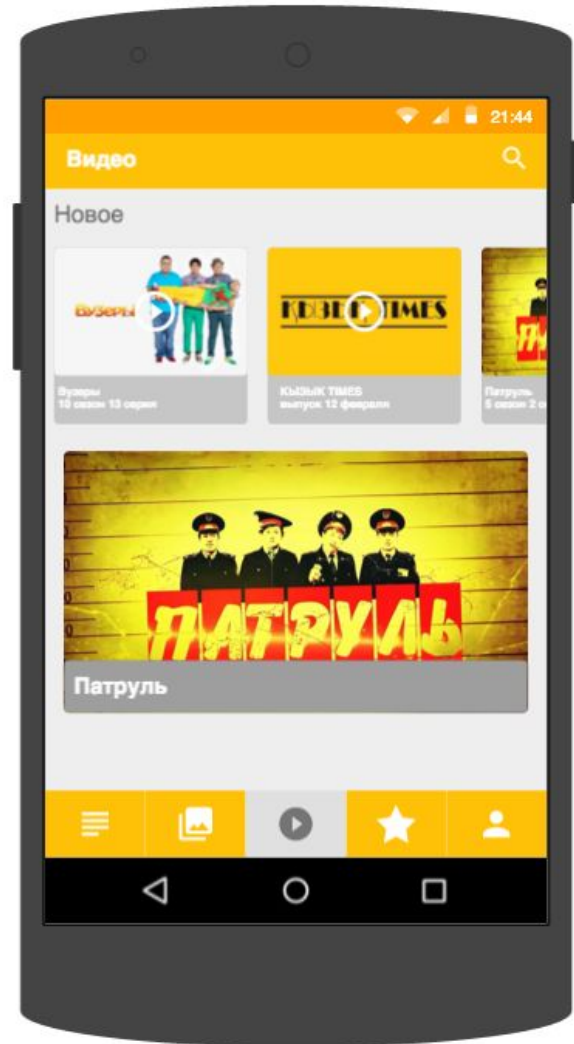

Zoomed image.

Screenshot 3 (Videos)

Video tab. Here we have list of all shows , tv series, movies etc.

At top we have a horizontal list with new updated series.

Horizontal List

List of Shows

Screenshot 3.1 (Chosen Show)

When we select one of show, this window will opened. On the top we can see latest fresh tv series. Also we have buttons: see all series, soundtracks, and about actors. Description of show writen at the bottom.
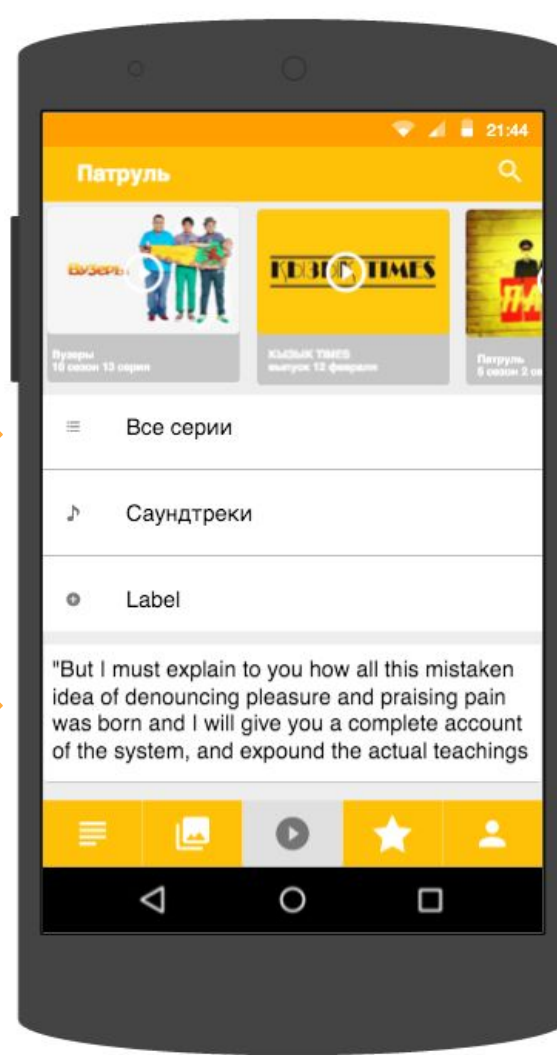

Fresh series

buttons

Description

Screenshot 3.2(Chosen video)

Selecting video will open this window. Here we can watch video, like it, or share, also we can sent a comment and read comment other users (authorisation require before comment or like)

Play video

Like, share button

Write a comment, send button, smile button

Screenshot 4 (Residents)

There is a list of BAS production's residents. Pressing to one of residents will open a more information.

Residents

Screenshot 4.1(Resident info)

This is resident information window.
Click to arrow to go back window.

back arrow

Screenshot 5 (Accaunt)

Accaunt information Tab. We have 3 buttons here : watched videos, favourite videos and log out.

list of buttons ➡

Screenshot 5.1(Authorization)

Authorization window. clicking to one of
social network will authorize user.

Screenshot 5.2(Watched video)
